Dr. John P. Holdren Director, Office of Science & Technology Policy, Executive Office of the President Washington, D.C. (by e-mail, fax, regular mail)

cc. Dr. Steven Chu, Secretary Department of Energy, (by e-mail, fax, regular mail) 24 member Committee—National Academies "America's Energy Future" Members of Congress

Dear Dr. Holdren:

Peace on earth and preservation of the marvels of nature will not be achieved without a sound energy policy. This must include well-managed and well-governed thermal- and fast-neutron nuclear power, recycling spent fuels and depleted uranium. This was the goal of the founding scientists in the late 1940s and still is the best way to a reliable and secure energy future.

This letter is about American policy in a world that counts on American leadership. Although that leadership is vital if there is to be an orderly global deployment of nuclear technology, the United States has for a decade and a half left the evolution of nuclear-power technology largely to others, and consequently is being left behind. At present, 58 new nuclear plants (including two fast reactors, one in Russia and one in India) are under construction in 14 countries. Of these, 20 are in China, 9 in Russia, 6 each in India and South Korea. Only one is in North America, and that is resumption of work on a plant that was mothballed in 1988 when it was 80% finished. France has just announced a \$7 billion commitment for a "sustainable development" program that includes promotion of fourth-generation nuclear reactors, three of which are fast-neutron reactors—a technology in which the United States was once the world leader.

America needs to proceed quickly—not twenty or fifty years from now—while the people who pioneered this science and engineering can still provide guidance to a new generation of scientists and engineers. There is no political, economic or technical justification for delaying the benefits that nuclear power will bring to the United States and that U.S. leadership can bring to the world.

We have three urgent recommendations.

*First*, we believe it's imperative to accelerate the licensing and building of the kind of reactors now in use, commonly called thermal reactors. For the last 40 years the LWRs in the United States and CANDU reactors in Canada have served us well. Nuclear plants also have the unique capability to convert swords into ploughshares. Currently, half of the US nuclear electric power comes from reactor-grade fuel consisting of downblended weapons-grade uranium purchased from Russia under the 1993 US-Russian nonproliferation treaty, under which more than 15,000 Russian nuclear warheads have already been disassembled. This program is scheduled to continue into 2013.

While the performance and safety records of the existing reactors have been excellent, the evolutionary improvements in new thermal-reactor designs will take both safety and efficiency to an even higher level.

*Second*, along with the critical need for nuclear energy is the urgent call for the isotopes of nuclear medicine. Currently there are major shortages, especially in Mo99/Tc99m, which is only produced outside of the United States. This ongoing crisis has hampered diagnostic and therapeutic procedures for all the major diseases (all forms of cancer, heart disease, Alzheimer's, et al.). Thousands of lives are in jeopardy. Initiation of large scale domestic production of the full spectrum of medical and industrial isotopes is overdue and can be done without using highly enriched uranium. Just recently, the NRC announced that they would allow a U.S. nuclear power utility to produce Co-60, heretofore 100% imported.

*Third*, development of fourth-generation nuclear reactors will be needed if nuclear power is to expand significantly beyond its present market penetration—an expansion that is so necessary if our descendants are to have ample energy over the coming millennia. Therefore, we strongly recommend reinstating the development and demonstration of the technology for recycling used fuel—a goal of fast fourth-generation nuclear reactors—as epitomized by the U.S.-developed Integral Fast Reactor (IFR). The IFR transforms used fuel from a "waste" to a major energy resource, and in so doing it happens to resolve a major public concern about nuclear power—the safe use of the long-lived radioactive byproducts. Further, IFRs can utilize excess weapons plutonium effectively and rapidly, while generating revenue instead of costs—a development consistent with Russian recommendations.

Work on the IFR technology was halted just as commercial viability was about to be demonstrated. While the operability of the reactor portion of the IFR has been adequately established, a commercial-scale demonstration is needed to settle details of the fuel-processing phase and to refine cost projections. Russia, China, India, Japan, and South Korea have expressed interest in the technology of metal-fueled fast reactors, and would likely contribute to a demonstration plant in exchange for design and operations information.

The energy in uranium provides 20% of the electricity in the United States today. We must expand that nuclear contribution rapidly if we are to maintain the welfare of our people, protect our environment, and preserve a leading international role in the evolution of nuclear technology.

Respectfully,

John A. Shanahan	Joseph M. Shuster
Civil Engineer	Chemical Engineer
Colorado	Minnesota
Leonard J. Koch,	Theodore Rockwell
National Academy of Engineering	National Academy of Engineering
Arizona	Maryland

\* \* \* \*

P.S. Two signatories of this letter, Leonard J. Koch of Arizona, USA, and Dr. Evgeny Velikhov of Russia, are Global Energy Prize laureates—an award that is characterized as the Russian equivalent of the Nobel Prize for outstanding research to solve the world's energy problems.

#### SIGNATORIES FROM THE UNITED STATES

#### **UNITED STATES**

#### Alabama

#### John Birdsong, COL, MI. Military

Intelligence officer, former Battalion Commander in Afghanistan, Strategic Advisor to Saudi Arabian National Guard, specialist in U.S. Grand Strategy, Intelligence Analysis, Tactical and Joint Operations. Harvard Senior Fellow, Post Graduate Intelligence Program, and Air War College.

**Joseph C. Murray**, BA History & Political Science. US Army. Schwitzer Corporation. Holmes Blowers, Ltd. \*

#### Arizona

**Edgar Brooks**, BA Education, MBA, LT USN (Ret.) Qualified Submariner and Nuclear Reactor Operator. Senior manager in several corporations providing support services to the civilian nuclear power plants and facilities in the U.S. \*

**Dr. Doug L. Hoffman**, Computer Science. Data Center Architect. Co-author of The Resilient Earth, a book about life, science and the planet we live on. \*

Leonard J. Koch, National Academy of Engineering, Fellow, American Nuclear Society. Assoc. Proj. Engineer EBR I, the first nuclear power station in the world. Proj. Mgr. EBR II, the first integrated fast neutron reactor power station incorporating fuel recycling. Received the Global Energy International Prize from Russia in recognition of his work in 2004. Member, Science Council for Global Initiatives.

**Dr. Terry J. Lovell**, Business Computer Science. Yavapai College. 3 decades college educating. Nuclear power could be our new SPACE PROGRAM. Start building NP and fleet of electric transport vehicles. Fund new wave of natural scientists and engineers. An American Renaissance!\*

**Robert M. Morse**, BS Civil Engineering, Member Archemides Circle (Honorary Eng. Fraternity.) Past Member, American Nuclear Society. Responsible for licensing, design and construction of more than 15 nuclear power stations in U.S. and other countries at Bechtel and EBASCO. Presently, Executive Consultant to the U.S. DOE on nuclear waste cleanup.

Miriam Sacks, ASRT Career CE, Background in X-Ray radiation science, Supervisor of radiology. Retired. Biographer.

**Dr. William Sacks,** PhD Astronomy; MD, Board Certified Radiology. Professor of Physics. Medical Officer FDA's Office of Device Evaluation. Currently in radiology practice.

**Eugene B. Veek**, BS physics, math, MBA. USN (Ret.) Submariner and former Commanding Officer of a US submarine. Consultant to The Rand Corporation. Elected to New York Academy of Science. \*

#### California

**Dr. H. Sterling Bailey**, Nuclear Engineering Consultant, PE. Four plus decades of technical and managerial involvement in LWRs, metal-cooled fast reactors, space power reactors for exploration bases and propulsion.

**Dr. Jay Berry**, Doctor of Optometry. 4 years in USAF. 40 yrs in private practice. \*

Kim Berry, Computer Scientist. \*

Valerie Berry, BS, Business Administration. Business Development Manager. \* **Tom Blees**, Author "Prescription for the Planet - The painless remedy for our energy and environmental crises" President, Science Council for Global Initiatives.

**Charles Boardman**, MS ME. Led GE Advanced Reactors Team. Member of the DOE sponsored GEN IV Advanced Concept Selection Group which spent two years evaluating Advanced Nuclear Reactors of every type. VP Nuclear Services Cameron Consulting. \*

**Daniel S. Boessow**, BEE, MBA. RCA, US Army. Supervisor operational ground communications systems Kennedy Space Center. Manager, ground communications, telemetry ITT Federal Electric Corp. Software & Systems Development Manager for SAIC. \*

**Neil W. Brown**, Engineering Consultant, PE.

**Douglas G. Carroll,** P.E., Engineering Consultant, Director, Science Council for Global Initiatives, more than 40 years design, analysis, and startup of commercial nuclear power plants in 5 countries plus space applications. Design of PRISM reactor.

**Kevin T. Casey**, BS Accounting. CPA Insurance Broker for the Construction Industry. \*

**Dr. Howard T. Coffey**, PhD Physics. He admired the IFR program since 1989, when he joined Argonne National Laboratory to work on Magnetic Levitation for High-Speed ground transportation and superconductivity. Prior to Argonne, he was in R&D and management at SRI and Westinghouse R&D.

**Dr. Alexander DeVolpi**, nuclear physicist, Argonne National Laboratory (retired), Nuclear arms-control and treaty-verification technology. Author of "Nuclear Insights – The Cold War Legacy" Volumes 1, 2, 3.

**Dr. Jeff Eerkens**, nuclear engineer was in first graduating class of U.C. Berkeley's Department of Nuclear Engineering. Author of "The Nuclear Imperative - A Critical Look at the Approaching Energy Crisis (More Physics for Presidents)", Adjunct Research Professor Nuclear Science & Engineering Institute U of Missouri. President, Prodev Consultants. Member, Science Council for Global Initiatives.

**Glen C. Farkas, M.D.**, FABO, FAAO. Ophthalmic Surgical Specialist. Stage IV Cancer Survivor. "Transmutation of the waste into useful isotopes is important. The simple acceptable concepts of recycling all types of waste is considered to be the intelligent thing to do. We have made these types of choices with our garbage, plastics, water. The obvious long term acceptance of our nuclear powered submarines provides national pride and almost no safety concerns regarding core meltdown or proliferation. If it takes military supervision to develop our civilian nuclear program then park the reactors next to the subs."

**Dr. Timothy Ferris,** Emeritus Professor, Graduate School of Journalism, U. of California, Berkeley. Author of Coming of Age in the Milky Way and The Science of Liberty. Fellow, Guggenheim Foundation and American Association for the Advancement of Science.

Kenneth D. Flauding, II, BA Business Administration US Army Sergeant E5 (Ret.). Stanford University as an IT Facilities Engineering Project Manager. \*

**Sarah Foster**, BS anthropology, MA mythology. Writer. Supports nuclear power. \*

**Thomas P. Griffin**, Special Agent FBI (Ret.), 32 years.

**Ronald Guyer**, BS Finance. Presently serve as President of Alpha Source, Inglwood, CA Former CEO of the International Foundation for Science and the Environment.

Christopher Horgan, Executive Director, Stewards of the Sequoia, Conservationist. \*

#### Dr. Bryce W. Johnson, Nuclear

Engineering, Professional Nuclear Engineer (retired). Worked actively in nuclear engineering research for over 50 years, spending the last 32 years as a senior staff scientist at Science Applications International Corporation. \*

# Susan Kennedy, Paralegal, (Ret.). \*

**Joseph G. Kerwin**, PhB, Co-founder of Yoogli, Inc. Seminal patents in Semantic Search Technology. Dedicated to advancing Web-based solutions in semantic search and semantic networking technologies.

**Steve Kirsch**, CEO Kirsch foundation – Member, Science Council for Global Initiatives.

**Richard W. Knudson**, BA/BS Economics; Retired business owner. \*

George Lyddane, US Air Force Academy, Engineering. Former Vietnam vet and military and civilian test pilot. Former FAA Chief Scientist and Technical Advisor on Flight Management. Senior Vice President and Director of Airworthiness for AeroNimbus Aircraft Company.

James Leverentz, MBA. US Navy and aerospace industry. Have been a Principal Contracting Officer for the US Navy, a contracts manager for Hughes Aircraft Company, the Deputy Director of Contracts for XonTech, Inc. Currently a contracts manager for Northrop Grumman Systems Corp. \* **Don E. Lutz**, BS ME. PE. Design and procurement for Enrico Fermi Fast Breeder nuclear power plant. Argonne National Lab EBR II, General Electric Nuclear Fast Reactor Program.

**Dr. Carol S. Marcus**, Ph.D., M.D. Prof. of Radiation Oncology and Radiological Sciences, UCLA. Ph.D. in Radiation Biology and medical specialty is Nuclear Medicine. Past advisor/consultant to the FDA and NRC. Former President of the California Chapter of American College of Nuclear Physicians (ACNP), Vice-President of Society of Nuclear Medicine (SNM). Chair of Government Relations for both ACNP and SNM. Twenty million Nuclear Medicine procedures are performed in the United States each year, and most of them use Tc-99m. We need reliable American suppliers.

**Peter McWilliams**, BS math, physics MBA. Offshore marine oil exploration. Petroleum marketing - Shell Canada Limited. Residential real estate development entrepreneur. Thanks for opportunity to assist correcting this glaring inadequacy in our country's power infrastructure. \*

**Dr. Ralph Moir**, retired Lawrence Livermore National Laboratory. Nuclear Engineer. Consultant. PE. Fellow, American Nuclear Society.

**Lawrence M. Murchan**, MS ME, MBA. Reactor safety systems for the Clinch River Fast Breeder Reactor as well as BWRs at General Electric

**Dr. Subir Nag**, Radiation Oncology. MD, FACR, FACRO. Fellowship in Brachytherapy at Memorial Sloan-Kettering Cancer Center. One of world's pioneers in brachytherapy and intraoperative radiation therapy. Fellow of American College of Radiology, Fellow of American College of Radiation Oncology. Named one of the Best Doctors in America for Brachytherapy. Chair of Nuclear Regulatory Commission's Advisory Committee on the Medical Uses of Isotopes. "Availability of medical radioisotopes is essential to cancer patients."

**Dr. John N. Nishio**, PhD. Director, Professional Science Master's Program, Environmental Sciences; Biocompatible Plant Research Institute, California State University, Chico. Experience as US Park Service Ranger/Naturalist and environmental educator; project manager, construction of integrated waste management facility in Nigeria; agricultural consultant. Research in plant responses to environment >25 years.

James E. Owens, BS Electrical Engineering. Oak Ridge, TN, Y-12 electromagnetic separation of uranium isotopes. Oak Ridge National Laboratory, experimental/developmental nuclear reactors - Low Intensity Test Reactor (LITR) a prototype for first Materials Test Reactor (MTR) in Idaho. Control system for Bulk Shielding Facility and Homogeneous Reactor Experiment. Test program for Nautilus, the first nuclear submarine. Atomics International, test program for Sodium Reactor Experiment and Hallam Nuclear Power Facility, a 75 MWE sodium cooled, graphite moderated thermal reactor. We considered sodium a very useful coolant. Melting point near boiling point of water, boiling point about 1650F, so there was no need to pressurize the system much above atmospheric. These characteristics eliminated need for heavy pressure vessels.

**Dr. David J. Paul**, Chemical Engineering, Meteorology, Management Science. USAFR (Ret.). Chairman, The Cameron Group enabling companies achieve their nuclear power goals, education of legislators and the public to the benefits of nuclear power, and support and development of small, modular nuclear reactors. "Energy, Engineering, Education, Environment." \*

**Dr. Philip R. Pluta**, Nuclear Engineering. 32 years nuclear engineering applied to systems, design and development of the BWR, gas cooled reactors, sodium cooled Fast Reactors and space nuclear power applications.

**Richard Rhodes**. Writer. Pulitzer Prize in Nonfiction for The Making of the Atomic Bomb. Author, Nuclear Renewal; Dark Sun: The Making of the Hydrogen Bomb; Arsenals of Folly; The Twilight of the Bombs (9- 2010)

**Edwin Sayre**, Engineer (Ret.) Helped design and build nuclear plants around the world.

**Scott Schenter**, BA Finance and Marketing. Co-author of patent on producing radioisotope Actinium-225 that could help in cure of cancer and other diseases. Saw the dedication and passion of his father, Robert Schenter, to just "cure patients" and show how nuclear medicine and radioisotopes can enhance people's lives.

**Steve Scheye**, BS-Chemical Engineering, BS-Pulp and Paper Technology, PE. Design Engineer in Petroleum Manufacturing and Pulp and Paper. \*

**Dr. Ken Schultz**, PhD, Nuclear Engineering Sciences. PE. 40 years of nuclear engineering: Nuclear design for High Temperature Gas-cooled Reactors, Magnetic Fusion nuclear technology, Inertial Fusion target technology and engineering of High Temperature Gas-cooled Reactors.

#### SIGNATORIES FROM THE UNITED STATES

Marc C. Seward, BA. ChFC, CLU Principal Heritage Wealth Management, LLC. Nuclear Power must be used in the United States. Principal of one of largest independent wealth management firms in Southern California. \*

**Robert E. Sims**, News Director 20+ years in Los Angeles (Ret.). \*

**Gordon H. Smith**, BS pure mathematics. MBS. Rear Admiral, USN (Ret), Naval Aviator. Service also included Acting Deputy Under Secretary of Defense, Research and Advanced Technology, Vice Commander, Naval Electronics Systems Command. Since Navy retirement has served as CEO/President of five high technology companies.

**Steve Smith**, BS Business Administration. Owner/President of Mission Peak Business Products, Inc. \*

**Dr. Michael Spaeth**, Chemical Engineer. Career in nuclear waste management and nuclear fuel reprocessing covering PWR, BWR, HTGR and Breeder Reactor technologies. Battelle, Exxon Nuclear, and Science Applications International. \*

**George Taylor**, PhD Computer Science. Founder, Palmetto Energy Research, a nonprofit dedicated to educating the public about the future of energy

**Robert H. Unger**, BS EE. R& D Engineer, Integration testing on F-117 stealth fighter, Systems engineer on U-2 defensive system. Retired 28 years at Lockheed Martin

Edward A. Veek, BA IBM Corp, 30 years, engineer.(Ret.) U. S. Navy, Petty officer. \*

**Keith von Borstel**, Horticulturalist. The Science Council for Global Initiatives.

**Susan von Borstel**, Artist. The Science Council for Global Initiatives.

Eugene P. Wilkinson, BA Chemistry. Two Years Post-Graduate Chemical Engineering. Commanded four submarines: Volador, Sea Robin, Wahoo and was initial Commanding officer of USS Nautilus, the world's first nuclear submarine. On January 17, 1955 issued the historic message aboard the USS Nautilus, "Underway on Nuclear Power," ushering in the nuclear age for the United States Navy. Admiral Rickover selected him to serve as the first Commanding Officer of the USS Long Beach, America's first nuclear surface ship. In 1980 he was chosen as the first President and CEO of the Institute of Nuclear Power Operations (INPO). Vice Admiral, US Navy Ret.

**James Wobser**, Physicist, Lawrence Livermore National Laboratory (Ret.). \*

#### Colorado

Dr. Charles B. Archambeau, Physicist, Geophysicist. MacArthur Fellowship. Foreign member of the Russian Academy of Sciences. Public Service Award from the Federation of American Scientists in recognition of his "leadership in applying seismology to the banning of nuclear tests." President of Technology Research Associates Corp. University of Colorado Attendant Rank Professor of Physics, Theoretical and Applied Geophysics Group. Attendant Rank Professor of Geological Sciences at the University of Colorado. Professor of Geophysics at the California Institute of Technology. Member of scientific research staff at Cooperative Institute for Research in the Environmental Sciences (CIRES).

**Joe Blanc**, Associate in Liberal Arts. IT technician at a Community College. \*

**Dr. Lon Brouse**, BA chemistry Physics, Math. 25 years environmental chemist working for: Reynolds Aluminum Company, Colorado Ute Electric Association, Arizona Public Service Company, Calgon Heavy Industrial Water Treatment Services Ecolab Corporation. \*

**David J. Bufalo**, BS CE, PE, Management Consultant. Major, US Army Reserve, Corps of Engineers (Ret.). 40+ years experience in management of design and constructions projects including five years of Arctic construction techniques. \*

Michael K. Curtis, BA Economics and Finance VP, The Neenan Company, developer of rural replacement hospitals throughout the western United States. Member, National Rural Health Association, the Colorado Hospital Association, and the Colorado Center for Rural Health.

John R (Grizz) Deal, CEO, Hyperion Power. Technology Ventures Corporation for Nuclear Energy Division of the U.S. DOE. Managing director at Purple Mountain Ventures (PMV). Director of U.S. National Lab Seed Fund, a venture capital fund focused on innovations developed by U.S. DOE. Visiting entrepreneur at Los Alamos National Laboratory (LANL). Chief marketing officer for Space Imaging. Founder and former CEO of LizardTech. Consulting scientist at LANL.

John Dendahl, BS EE, BS Business. Retired executive with past positions in nuclear technology, banking, education, real estate development and government. Engineer, then CFO, then CEO of Eberline Instrument Corp., a leading designer and manufacturer of radiation monitoring instruments and systems and provider of related analytical and consulting services. **Raymond D. Dixon**, MS; Physics. Research interests: Condensed Matter and Materials Processing. Member APS and AWS (Fellow AWS). 35 years in Materials Research. Retired Staff Member: Los Alamos National Laboratory

**Craig Green**, PE, BSME, MSCE, hydrologist and water resources consultant. Former U.S. Air Force Officer and Space Systems Analyst. \*

**Dr. Uwe Greife,** Professor of Physics. Interim Academic Program Director Nuclear Engineering. Department of Physics. Colorado School of Mines

**Dr. Howard C. Hayden**, Professor Emeritus of Physics, U Conn. \*

James L. Jehn, C.P.G., President, Jehn Water Consultants, Inc. MS degree Wright State University, Ground Water Hydrology. 37 years experience in water resources, water rights water supply consulting in Colorado and surrounding states. Registered Professional Geologist.

**Demetry Koretskiy**, 11<sup>th</sup> grade. Math, science, history, languages (Russian, Hebrew, Spanish, English). Wants to become scientist or engineer.

**Conrad M. Ladd**, BS ME. PE. Life Felllow ASME. Past Chair ASME Energy Committee. Fermi I reactor core design and R&D 1953-56. Conceptual design 300 MWe Liquid Metal Fast Breeder Reactor with closed fuel cycle, 1956-59.

**Dr. Donald A. Ludwig**, PhD, Medical Physics. 30+ year career in medical physics includes diagnostic imaging, nuclear medicine, radioisotope production, conventional radiation therapy, brachytherapy, heavy ion particle therapy.

#### SIGNATORIES FROM THE UNITED STATES

**Dale Reaves**, Designer of custom Southwest homes with Native American architectural details. Designer of industrial facilities in United States, Europe and Russia.

**Sandra S. Roark**, Registered Nurse 47 years. Owner of printing company 16 years.

**Dr. John A. Shanahan**, Formerly, nuclear power plant design and licensing USA and Switzerland.

**Dr. Randolph 'Stick' Ware**, Experimental Nuclear Physics, U. of Colorado Cyclotron. Founder, Chief Scientist of Radiometrics Corporation, Visiting Scientist at National Center for Atmospheric Research. Senior Research Associate at the Cooperative Institute for Research in the Environmental Sciences (CIRES). Founder, Director of the University NAVSTAR Consortium, SuomiNet and GPS/MET programs at the University Corporation for Atmospheric Research; Science Fellow at Congressional Office of Technology Assessment. \*

**Dr. Tom M.L. Wigley**, PhD, theoretical physics. Trained as meteorologist in Australia. Director of Climatic Research Unit, University of East Anglia from 1979 to 1993, before moving to NCAR, Boulder, CO as a Senior Scientist. He is one of the world's most highly cited climate scientists.

**Dr. Robert Williams**, PhD Public Policy. Former Chairman and CEO of Policy Studies Inc.

#### Connecticut

**Maryann Gmelin Collier**, BA Education. Teacher, Volunteer on Army Posts and in White House. \*

**Howard B. Mirkin**, LCDR, USN (ret), "Any American who understands our energy needs should sign this letter to Washington." **Dr. Edmond O'Connell**, Professor of Chemistry, Fairfield and Yale Universities.

### Delaware

#### Dr. Kenneth W. Skrable, PhD,

Radiological Sciences and Protection. Research and consultant for nuclear power stations in area of monitoring and control of internal radiation exposures; Past Chairman of Health Physics Society Committee on Occupational Radiation Exposure Standards; member National Council on Radiation Protection, American Nuclear Society, and Health Physics Society Fellow.

# District of Columbia

**Edward D. Kee**, MBA, Harvard. US Naval Academy. Five years nuclear engineering & construction for nuclear-powered aircraft carrier. Economic and management consultant with focus on electricity and nuclear power industry.

#### Florida

**Price Baker**, 11<sup>th</sup> grade. Debates on regional and national levels in the National Christian Forensics and Communication Assoc. District 6 winner Voice of Democracy speech contest by Veterans of Foreign Wars. Debates nuclear energy.

**S. Locke Bogart**, Fission and Fusion Energy Systems Analyst and Synthesist.

**Dr. Robert Carretta**, MD FACNM. Nuclear Medicine, Cardiology. Past President, Society of Nuclear Medicine. Past President American College of Nuclear Physician

**Robert S. Margolis**, BS Nuclear Engineering. PE. 23 years nuclear engineering including startup testing for Yonggwang units 3/4 and reactor engineer at Ft St Vrain (HTGR). Martin McClellan, BS Mathematics, MS Space Systems. Integration Engineer on our Nations Space Shuttle. \*

**Dr. A. David Rossin**, Assistant Secretary of Energy 1986-87. President ANS 1992-93. US fuel cycle policy and nonproliferation.

**Dr. Stanley Satz**, PhD Radiation Physicist. Chairman and Chief Scientific Officer of Bio-Nucleonics, Inc., a life sciences company, specializing in development and commercialization of radiopharmaceuticals for nuclear medicine and molecular imaging and medical devices used in cardiology, oncology and neurology..

# Georgia

**Dennis Brannon**, BS Computer Science, MBA. CPA 15 years technician Fortune 200 companies. 15 years CPA. \*

**Lisa Birdsong**, BA. Military spouse, mother, teacher, and small business owner. She owns a small business selling wholesale furniture and tutors students in English, Communications, and Leadership.

**Mary Claire Birdsong**, 10<sup>th</sup> grade. Regionally qualified debate student NCFCA. Recognized for excellence in 2008- 2009 by the Optimists Club, the American Legion, and Toshiba / National Science Teachers

Warren B. Causey, Vice President, Sierra Energy Group, A Division of Energy Central. \*

Association. Debate team on nuclear energy.

**Dr. Michael L. Ford**, Th.D. Dean, founder of Jonsquill Ministries Buchanan, Georgia, CUA CP.

**Art Gittelman**, Engineer (ret) - Space programs: Redstone, Jupiter, Pioneer, Apollo, Biosatellite, MMIII in Servomechanism design for Guidance and Control systems, Systems Engineer.

**Dr. Nigel Stevenson**, PhD nuclear physics. Produced radioactive and stable isotopes for academic institutions and commercial companies. Directed isotope production activities at TRIUMF, Theragenics Corporation, Trace Life Sciences and Clear Vascular, Inc. Developing new isotopebased products for medical applications.

# Hawaii

Mark S Blackburn, MBA, Business Analyst, Bishop Estate. \*

**Randy Weir**, BA Construction Management, MA Economics. Owned and operated RS Weir General Contracting Inc since 1976. We are high end residential contractors. \*

### Idaho

**Dr. Jay F. Kunze**, PhD, Physics, licensed Mechanical Engineer. Twenty years in nuclear R&D at the Idaho National Laboratory. Five years as President of Energy Services, a Geothermal Energy Development company. Twenty five years in academia, including 11 years as Dean of Engineering at Idaho State University. Currently professor of nuclear engineering and reactor administrator. Fellow American Nuclear Society and American Society of Mechanical Engineers.

**Dr. Gene Malvino**, PhD International Business Administration Professor (Ret.) International Business and Marketing, Taught in Europe, Latin America, China, Japan and Russia. Careers in higher education, construction, business management. \*

**DeWitt A. Moss**, Chem Engr & Nuclear Engr., Proj. Mgr for BWR and Liquid Metal

Fast Breed Reactor fuels and materials. DOE Sr. Site Rep at EBR-II, ANL-Idaho.

**David A. Remien**, BA Chemistry. Retired. Idaho National Laboratory. Data engineer at Power Burst Facility; lead software developer (SCADA) for Fluorinel Dissolution Process plant (FAST) at Idaho Chemical Processing Plant. Co-winner of the "George Westinghouse Signature Award of Excellence", 1987

**Edward F. Russell**, BS, MS geology. 30 years, (27 with Conoco), exploration for natural resources - oil and gas, uranium, coal, as well as mineral exploration. Registered professional geologist. \*

#### Dr. Allan M Salzberg, MD PhD.

Theoretical Physicist, Rocket Science, Sr Defense Analyst including Nuclear and Intelligence. Career change to Medicine. Naval Flight Surgeon then Chief of Staff of a VA Hospital. Candidate for Congress, District 1 ID. My #1 platform is Energy. The only extant options that can preserve our civilization are 3rd then 4th generation reactors. Website www.allansalzberg.com

**Dr. John E. Tanner, Jr.**, Physical Chemist. Co-development of NMR pulsed field gradient technology and applications. Nuclear criticality safety analyst at the Idaho National Laboratory. President of Coalition 21, a local pro-nuclear advocacy group in Idaho.

**Dr. Charles E. Till**, Member, National Academy of Engineering. Fellow, American Nuclear Society. Walker Cisler Medal of American Nuclear Society. Member, Science Council for Global Initiatives.

**Vern Westgate**, BS EE US Air Force Korean War. Systems Engineer, North American Aviation, Aeronutronics, Philco-Ford, Hughes Aircraft Company, ISC Systems Corporation, Boeing Commercial Airplane. \*

**Dan Yurman**, BA Economics, MA Urban Planning. Publisher nuclear energy blog 'Idaho Samizdat' with 100,000 readers in 70 countries in 2009. http://djysrv.blogspot.com 19 years Idaho National Laboratory technology transfer for nuclear energy programs; 10 years U.S. EPA, hazardous/nuclear waste cleanup program management. Member, ANS

# Illinois

**Dr. Theodore Bauer**, Nuclear Engineer. Nuclear Physics. Argonne National Laboratory.

Dr. Roger N. Blomquist, Nuclear Engineer.

**Steve Goreham**, BS, MS, MBA Author, speaker, researcher in climate science, electrical engineer, business executive. \*

**Dr. William H. Hannum** (Ret.), DOE reactor physics, reactor safety, high level waste treatment; TVA safety review board; OECD Nuclear Energy Agency, Argonne National Lab. Fellow, American Nuclear Society. Member, Science Council for Global Initiatives.

**Dr. Robert E. Henry**, PhD Mechanical Engineering. Former Associate Division Director of Reactor and Analysis Division at ANL. Co-founder and Senior Vice-President of Fauske and Associates, LLC, a wholly owned subsidiary of Westinghouse Electric Co, LLC. U.S. delegate to the international IAEA Conference following the Chernobyl nuclear plant accident. Author of book on Three Mile Island accident and over 200 technicale articles and reports.

**Dr. Jay Lehr**, Science Director. The Heartland Institute.

**Gerald E. Marsh**, Physicist, Argonne National Laboratory (Ret), Consultant to the Department of Defense during three administrations. Fellow, American Physical Society.

Mark J. Pruitt, Director Illinois Power Agency \*

**Dr. George Stanford**, Reactor physicist, retired from Argonne National Laboratory. Member, Science Council for Global Initiatives.

**Dr. Armando Travelli**, Senior Nuclear Engineer and Manager, ANL RERTR Program, 1978-2005 (Ret.).

### Iowa

**Dr. Malik E. Juweid, MD**. Professor of Radiology, Medical Director of Nuclear Medicine, University of Iowa. Has been involved in both clinical and research aspects of nuclear medicine since 1986. Has witnessed the huge impact this specialty had on patient management, particularly over the last 10 years. It would be catastrophic if this field is endangered because of lack of isotopes in the US; medical isotopes from local reactors are available daily in many developing countries like Syria and Israel. It is beyond belief that the US cannot guarantee constant availability of medical isotopes for the benefit of US patients!

# Louisiana

**Dr. Edward Zganjar**, Ph.D. Experimental Nuclear Physics. 40 years in nuclear structure research, more than 250 publications. LSU Alumni Professor. Research at Oak Ridge National Laboratory, Argonne National Laboratory, Berkeley National Laboratory, Brookhaven National Laboratory, GSI, Darmstadt Germany, and CERN.

# Maryland

**Rod Adams**, US Naval Academy, CDR US Navy. Founder, Adams Atomic Engines, Inc. Publisher, Atomic Insights. American Nuclear Society Presidential Citation, MS Systems Technology, US Naval Postgraduate School, Naval War College.

**Dr. Jon Boone**, PhD History. Administrator and professor U. of Maryland. School of Music, College of Arts and Humanities. Active on energy front for last eight years, intervenor in two MDPSC industrial wind hearings and having written and spoken extensively on the limitations of wind technology, both as an energy source and has an environmental nightmare. Website, <u>www.stopillwind.org</u>

**Theodore Beresovski**, MS Engineering Physics. Nuclear projects engineer in industry. Joined AEC in 1959. Participated in and directed nuclear reactor design and systems evaluations. From 1979 to 1986 worked at UNESCO, including participation in European Solar and Wind Energy Committees.

William Biggley, Retired from Johns Hopkins University. 38 years senior researcher in Biology Dept. coauthoring 32 papers in bioluminescence research, Formerly NRX reactor control technician at Chalk River. Currently, VP of The Maryland Conservation Council, web site http://www.mdconservationcouncil.org which supports nuclear power.

**Ronald E. Burdge**, BS, US Naval Academy, MBA. Engineer Officer & Executive Officer, nuclear submarine. Director of Enlisted Training, US Naval Nuclear Power School. Nuclear Training Director, Consolidated Edison of NY (AEC Senior Reactor License), Manager, Reactor Construction and Operation, Atomic Industrial Forum, President and General Manager, NUS Training Corporation. **William H. Choquette**, Philanthropist to education and builder of Vietnam War Memorial in Washington, D.C.

**Donald E. Erb**, BES Mechanical Engineering. U.S. AEC, research and development programs for first generation civilian light water reactors, beginning with Yankee-Rowe. Director of the Battelle Memorial Institute Columbus Laboratories Nuclear Utilities Technical Assistance Program. Retired in 1997 from the U.S. Dept. of Energy, where he was Director, Isotope Production and Distribution (1989-1997) for medical, industrial, and research applications. Recipient of American Society of Nuclear Physicians Industrial Committee Achievement Award for his isotope work.

**Ray A. Hunter**, Chemical Engineer, Atomic Energy Commission, Office of Nuclear Energy, Science and Technology (NE). For contributions to Liquid Metal Reactor Technology, awarded Walker L. Cisler Medal from American Nuclear Society. Listed in "Who's Who in Science and Engineering." Member, Science Council for Global Initiatives.

**Steven M Luscinski,** MS CE, MBA Early period as structural engineer designing nuclear power plants. 3 decades growing small/mid sized technology oriented companies. Angel investor

**Dr. Norman D. Meadow**, Principal Research Scientist, retired. Dept. of Biology. The Johns Hopkins University. Understands that nuclear power will be far less damaging to the biological world than renewable energy sources. Involved in supporting nuclear power. The Maryland Conservation Council supports building nuclear plants in MD. \*

**Dr. Theodore Rockwell**, National Academy of Engineering; Manhattan Project; Technical Director Naval Reactors (1949-

64). Listed in "World Who's Who in Science from Antiquity to Present".

**Dr. Thomas Ward**, Senior Consulting Scientific and Technical Advisor. Over 40 years research in basic and applied Nuclear Science in nuclear chemistry, radiochemistry, nuclear physics, atomic physics, particle physics, and cosmology (>200 papers)at BNL, LANL, LBL, TRIUMF, Indiana University and DOE HQ.

### Massachusetts

**Rudolph M. Grube**, BS Chemical Engineering. Supported administration of Plutonium Recycle Program for the US Atomic Energy Commission. In charge of fuel design and procurement for New England's "Yankee" plants for 31 years.

**Theodore N Kirchner**, MS ChE, over 30 years experience in safely manufacturing fine chemicals. \*

**Charles F. Reeves**, MS Civil Engineering, Fellow, American Society of Civil Engineers, PE. Directed safety analyses and designs for boiling and pressurized water reactors and high temperature gas-cooled reactor systems. Stone and Webster Engineering Corp. (Ret)

**Dr. Berol Robinson**, PhD Physics. Retired science and science education officer of UNESCO. Member of Association des Ecologistes Pour le Nucléaire (AEPN), president of American affiliate Environmentalists For Nuclear Energy (EFN).

# Michigan

**Dr. Dale Brethower**, Professor Emeritus of Psychology. Western Michigan University.\*

#### SIGNATORIES FROM THE UNITED STATES

Mark Forbert, BS government, world history, US history teacher, L'Anse Creuse HS North, Macomb MI. \*

**Duane Lawton**, BSEE, MBA. 36 years in IT management. (Ret.). \*

**Dr. David Taylor**, President Emeritus, Western Illinois University, retired - former Marine, professor of educational psychology.\*

#### Minnesota

John Adams, (Ret.) Senior Lab Automation Specialist for the Rochester MN IBM Laboratory. \*

**Cory M. Lownsbury**, BS Electrical Engineering, PE. \*

Joseph M. Shuster, Chemical Engineer, Author of "Beyond Fossil Fools, The Roadmap to Energy Independence by 2040" Member, Science Council for Global Initiatives.

# Mississippi

John Wheeler, BS Marine & Nuclear Engineering. 25 years experience operating military & commercial nuclear reactors. Senior Reactor Operator licensed on two US nuclear plants Producer of "This Week in Nuclear"

#### Missouri

**Robert Herzog**, "I have been a Builder / Developer for 45 years and firmly believe the nuclear option is the correct answer." \*

**Dr. Stanford L. Levin**, Emeritus Professor of Economics, Southern Illinois University Edwardsville. President, The Resource Group, Inc., St. Louis, Missouri providing consulting services in public utility regulatory cases, antitrust, evaluation of economic loss, and general economics. **Dr. Wayne McDaniel**, PhD Electrical Engineering.

**Dr. Sabiha Naz**, PhD Nuclear Engineering. Working in area of nuclear waste management. "I am highly in favor of peaceful application of nuclear energy specially in the area of radioisotope production."

#### Montana

Philip Baker, Construction worker (Ret.). \*

**Dr. Edwin X Berry**, Atmospheric Physicist. Certified Consulting Meteorologist. Chief scientist and manager of the Desert Research Institute's airborne research facility. National Science Foundation Program Manager for Weather Modification. Focused on the global warming problem. Member, American Meteorological Society. Director Climate Physics, LLC., <www.climatephysics.com.> \*

Marvon H. Cargill, Lewis and Clark College. \*

**Rhoda Cargill**, University of Washington, College of Fisheries. \*

**Aubyn Curtiss**, 24 years in public office. Supports nuclear power. \*

**James Edmiston**, BA. Served in ETO WWII 26th Inf 3rd Army. \*

George Everett, BS Business. Montana House of Representatives: 2002-2008 Committees: Natural Resources; Fish Wildlife & Parks; Judiciary. Real Estate-30 yrs. Business Owner- 30 yrs. \*

**Jim Foster**, BS CE 24 year career in military, Lt Col. (Ret.). Chief of Facility Management Glacier National Park. \*

**Chad Graham**, President, Graham Design and Construction. Kalispell Planning Board/Zoning Commission member. \*

**Doug Hamilton,** Bachelor of Commerce. International banking in four different countries. Supports nuclear power. \*

**Dan Happel**, BS - City Planning. Founder and CEO - Happel & Associates, Founder and COO - Coronado Corporation. \*

**Don F. Hart**, BS ME, MS Materials Engineer. Lt. Col. USAF (Ret) Experience includes weapon system development, space system engineering, development, procurement and operations. Aircraft flight operations and training. \*

**Fred D. Hodgeboom**, BS Forestry, Certified Silviculturist, USFS R-1. 32 years in U.S. Forest Service, (Ret.). \*

**Verdell Jackson**, MBVE. College professor, school superintendent. Montana State Representative and Montana State Senator. A member of the Montana State Energy Committee that is currently writing the Montana State Long Range Energy Plan. \*

Linda Johnson, Ret. Advsg. Sales Manager -USA division for 34 nation Computer Publication. \*

Patricia Kirkland, Mill worker (Ret.). \*

**David Maurer**, MS CE, MA Business. Graduate of USN Nuclear Power School. Thirty years Corps of Engineers, including program management in US Army Nuclear Power Program. Colonel US Army (Ret.). \*

**John Mauzey**, Engineer (Ret.) Designed and built embedded systems for consumers and engineers. \*

**Thomas McElwain**, BS Business Administration, (Ret.), The Montana Power Company and Stewart Title of Flathead County; (Ret.) Lt. Col., Montana Army National Guard. \*

Sean McGrew, Analytical Chemist. \*

### Tony O'Donnell. \*

**Dr. Peter O'Reilly**, MD. Board Certified Anesthesiologist (Ret). \*

**Dr. Steven Palmieri**, Chemistry. Postdoctorate German Cancer Research Center Heidelberg Oncogenes & Tumor Viruses. Doctor of Osteopathy. \*

James F. Rathbun, BS Forest Management. US Air Force. Thirty-four years US Forest Service. Retired as Forest Supervisor of Kootenai National Forest\*.

**Keith Regier**, Retired elementary teacher. Montana State Representative from HD#5. \*

**Jan Rogers**, (Ret.) Proposal writer for City of San Bernardino, CA Water Dept. \*

**Senator Bruce Tutvedt,** supports nuclear power. \*

**Paul Vallely**, US Military Academy at West Point. MG US Army (Ret.) Chairman Stand Up America and Save Our Democracy. Coauthored the book "Endgame—Blueprint for Victory for Winning the War on Terror." \*

**Glenn J. Wehe**, BS,MS Macro Economics & Finance, Educator (K-12). \*

**Julie Wolf**, BA Modern Languages, MS Education. Teacher, (Ret.). \*

#### Nevada

Leonard Emery, USAF TSgt Ret. \*

**Dr. Hugh H. Kieffer**, PhD Planetary Sciences. Geophysicist, U.S. Geological Survey (retired). Fellow, American Geophysical Union. Consultant to NASA on instruments and space missions (active).

James A. Kudrna, BS Economics and Business. Owner several real estate companies. \*

# New Hampshire

### John E. (Jed) Williamson, M. Ed.

Education Administration and Counseling/Psychology. Retired college president and university faculty member. "I believe that we must take advantage of the solid scientific work that has been done by so many credentialed scientists so that we can move forward with the logical choice of nuclear energy."

# New Jersey

**Gadi Levin**, BS ME. 30 years managed construction projects mostly in the North East. \*

Barnes Moore, BA. Account Executive. \*

**Charlie Opalek**, BSME, PE. President of Opalek Engineering Associates PC. \*

# New Mexico

**Dr. D. Richard ("Rip") Anderson**, organic chemist and chemical oceanographer. Expertise in nuclear environmental health and safety and probabilistic risk assessment. Led four major projects at Sandia National Laboratories, including one that made possible the opening of the Waste Isolation Pilot Plant. \*

**Anthony J. Francomano**, Educator 46 years, friend of scientists at Los Alamos and Sandia National Laboratories.

**Dr. Damon Giovanielli**, Retired from Los Alamos National Laboratory, former Physics Division Leader. President of Sumner Associates, Inc, scientific consultants. **Dr. Leo S. Gomez,** PhD Radiation Biology. 30 years experience in theories, and practices of radiological health and safety in performance evaluation and analysis of radiological health hazards in terrestrial and marine environments. Nuclear waste management from 1977-2000 at Sandia National Laboratories in Albuquerque, NM. Biological research project manager for international ocean disposal projects. Worked in Performance Assessment Department for Waste Isolation Pilot Plant, in NM. Director of Research at TCI Medical in Albuquerque, NM,

**Richard E. Malenfant**, MS Engineering Physics, MBA. 50 years of experience with experimental nuclear reactors and critical experiments including work with U-235, U-233, Pu-239 as solid, liquid, and gas as metals and compounds.

Mark L. Miller, M.S. Radiological Health Physics. Radiation Safety, Environmental Radiation Monitoring, Environmental Restoration

**Gary Millhollon**, Sr. VP Bank of Albuquerque. \*

Marita K. Noon, Exec. Dir. CARE: Citizens Alliance for Responsible Energy. Presenting the public with a clear view of the complete energy picture.

**Dr. Donald Petersen**, PhD. Retired. Division Leader, Life Sciences Division, Los Alamos National Laboratory. Radiation Dosimetry and Health Effects

**Dr. Harrison H. Schmitt**, Former United States Senator from New Mexico. Geologist as well as a former Apollo Astronaut. He currently is an aerospace and private enterprise consultant and a member of the new Committee of Correspondence. \* **Stephen D. Stoddard**, Retired. Los Alamos National Laboratory. Past President, Fellow, American Ceramic Society. Fellow, American Chemical Society

**Dr. William R. Stratton**, PhD Physics. Former Chairman of Advisory Committee on Reactor Safeguards. Former member, investigating team for Three Mile Island accident: explored behavior of core and systems during the accident and documented that there was very little release of iodine-131. Later participated in ANS study of behavior of reactors in severe accidents. Retired from Los Alamos National Laboratory in 1982.

# New York

**Dr. Robert C. Block**, PhD Nuclear Physics. Professor Emeritus from Rensselaer Polytechnic Institutute (RPI). Have been actively engaged in neutron physics research for over 50 years. Served as Director of the Gaerttner LINAC Laboratory at RPI for 30 years. RPI has active program at LINAC Laboratory in producing medical isotopes and encourage the full use of nuclear technology to produce these valuable and life-saving materials

**Gwyneth Cravens**, MA English Literature. Woodrow Wilson Fellow. Editor at The New Yorker, Harper's. Published five novels and non-fiction, "Power to Save the World: The Truth About Nuclear Energy." \*

John Droz, Jr., John Droz, jr: physicist (energy expert) and long time environmental advocate. Author of numerous energy and environmental articles, and EnergyPresentation.Info \* Joel E. Gingold, MS Nuclear Engineering, US Navy Advanced Nuclear Power School. Independent nuclear fuel consultant; retired Vice Present and General Manager, Stoller Nuclear Fuel Division of NAC International, world-wide consulting organization; 45+ years experience in commercial nuclear power.

James Gmelin, Lawyer, naturalist (Ret.).

**Jonathan Hirschey**, BA, BS, MBA. Inside Sales Manager at Climax Manufacturing Company. \*

**Samir Nazir**, BS ME. Oilfield service industry. Pursuing MS in Science Technology and Policy. "Investing in existing technology, use of flared off natural gas, is more sensible than carbon capture & storage."

Alan Raphael, Civil Engineer, P.E., M. ASCE Brookhaven National Laboratory. Engineering design and safety analysis on BWR, PWR, Fast Neutron and HTRL.

John F. Sullivan, MS nuclear physics.

North Carolina

Larry Bailey, CAPT (SEAL), USN (Ret.). \*

Margaret Harding, BS Nuclear Engineering. Expert in core and fuel design, nuclear quality assurance, regulatory compliance, nuclear business practices.

**Jeffrey C. Long**, BA Geology, former Captain US Army Special Forces and Civil Affairs; Governor's appointee to the North Carolina General Assembly's Public Health Study Commission. \*

**Edward A. Reid**, BS ME, MBS. Entire career in energy industry in RDD&D, Market Development and Marketing. Focus on energy end use efficiency, integrated system efficiency, heat recovery and reuse. Nuclear generation is the only power generation technology with the potential to replace coal and natural gas in a real world low carbon future.

**David G. Strawson+**, MS, Nuclear Engineering. With Allis Chalmers in design of Elk River and La Cross BWRs, and for over thirty years with MPR Associates in engineering and licensing of commercial nuclear power plants.

**Christopher Williams**, MS Engineering Management. Naval nuclear power program 15 years. Completed two tours on nuclear powered submarines, serving as the engineering office, LCDR.

# North Dakota

**Richard Spaeth**, Geologist. Well site geologist New Mexico, Texas, Oklahoma, Arizona, Montana and North Dakota, (Ret.). \*

# Ohio

**Dr. Angelo J. Campanella**, PhD Physics. PE. Fellow, Acoustical Society of America. 55 years experience in nuclear power and instrumentation, military electronics, infrared technology, missile guidance, nuclear power seismic analysis, acoustics. Presently independent consultant in physics and acoustics.

Jack G. Conner, BS Metallurgy, MS Business, USAEC, Reactor Development Division. Battelle Memorial Institute, Nuclear Project Manager, Battelle Energy Program. Retired.

**Jack I. Hope**, worked for Director of the Office of Science and Technology during the Nixon administration, 1971-1973, before the word "Policy" was added by President Ford. General Electric, manager of advanced engine programs. North American Aviation, Director of propulsion and thermodynamics. **Julia F. Johnson**, Retired Senior VP. J. P. Morgan Chase; Managing Partner Johnson Manufacturing and Farming LLC; Former Trustee Kenyon College

**Dr. Joseph P. Martino**, Physics, EE, Mathematics. Fellow, Institute of Electrical & Electronics Engineers. Fellow, American Assoc. for Advancement of Science. Associate Fellow, American Institute of Aeronautics & Astronautics. COL USAF (Ret.). Senior Research Scientist, Univ. of Dayton Research Institute. Faculty, Yorktown University. \*

**Jim McGregor**, Executive Director of the Ohio League of Conservation Voters. This organization as a whole gives their endorsement to this letter regarding nuclear power reactors for our US energy future.

**Thomas F. Stacy, II**, BS Industrial Marketing. Partner in plastics machinery sales firm. Applied mechanics, hydraulics, electronics and thermodynamics, focus on energy efficiency. Member ASME, IEEE, Society Plastics Engineers.

# Oklahoma

**Dr. Lewis Norman**, Organic Chemistry. 34 years research in oil and gas well service Halliburton Energy Services. "Wish you the best in your fight to put Nuclear Energy highest on the priority list. The future of our nation, and our children depends on it." \*

# Oregon

**Dr. Robert E Schenter**, PhD Nuclear Physics. Responsible for relief of "World Shortage" of Gd-153 using FFTF as production site. Led effort to produce over 80 different medical isotopes in the FFTF. DOE Isotope Program Office Site Manager and Group Leader Westinghouse Hanford Company. Helped to start two medical isotope production companies ISORAY and Alpha Particle Systems. Presently - Chief Science Officer (CSO) Advanced Medical Isotope Corporation. Fellow, American Nuclear Society.

# Pennsylvania

John Allmon, MS Environmental Health & Safety Nuclear Plant Simulation Test Director, 32 years commercial nuclear power as reactor operator and an instructor for SRO/RO requalification programs. U.S. Navy, five years reactor operator on nuclear submarine, instructor Naval Nuclear Propulsion School. \*

**Dr. Bernard L. Cohen**, Professor Emeritus of Physics, University of Pittsburgh.

**Glenn Czulada**, America's population is growing and our energy needs will increase in coming decades. We need safe, relatively inexpensive nuclear power. \*

**Frank D'Ascensio**, BS Chemistry. Worked for two major chemical companies in production management and 27 years at one of the largest Publicly Owned Treatment plants in the country as a dept manager in charge of environmental enforcement.

**Edward Graefe**, BS ME. PE. 20 years nuclear industry at PPL – construction management, reactor core design, marketing. Now, President of S&W Metal Products.

**Thomas Hafera**, two-time licensed Senior Reactor Operator – one on a PWR and one on a BWR. Former NRC employee.

# South Carolina

**Dr. Robert Bromm**, PE. Robert Bromm, PE. Director - Nuclear Design, Fluor Enterprises. 30+ years of nuclear/mechanical design experience in nuclear power plants, nuclear waste processing & management facilities, and test reactor operation. Past chairman of Los Angeles and Eastern Washington local sections of the American Nuclear Society.

### Tennessee

**Percy J Brewington Jr**, BS Civil Engineering. Management of major projects. Corps of Engineers: Manager of facilities for Rocket Testing and the Ballistic Missile Defense System. AEC/DOE: Manager of Gas Centrifuge Enrichment Plant at Portsmouth, OH. Director, Strategic Petroleum Reserve. Director Clinch River Breeder Reactor Project. Retired.

William P. Hargraves, Jr. Food irradiation processing consultant. CDR (Ret.) -- US Naval Reserve. Agricultural business development consultant in Africa and Iraq. Current project in Kurdistan.

**Kenneth D. Kok**, Nuclear Engineer. 40 years experience, ASME Fellow, Past Chair of the ASME Nuclear Engineering Division, Chair of the ASME Energy Committee,

**Dr. G. Ivan Maldonado**, Associate Professor. Dept. of Nuclear Engineering. U of Tennessee

Donald R. Riley, MS; Physics. K-25 (Manhattan Project); Aircraft Nuclear Propulsion; Southeast Fast Oxide Reactor; Fast Flux Test Facility; Clinch River Breeder Reactor. Experience: conceptual design of SEFOR; headed team that evolved the vertical core design for FFTF; DOE Branch Chief, responsible for design, development and construction of the FFTF core design; responsible for oversight of EBR-II reactor core activities; DOE Chief Engineer for design, equipment manufacture, schedule and cost of CRBRP; team leader of fast reactor core design teams visiting - France, England and Japan fast reactor activities; EPRI representative in Japan working with their fast reactor team. Sodium safety was a

factor in design. This covers all operations and development for SEFOR, EBR-II (during its > 30 years of operations); FFTF (during its > 10 years of operation); and CRBRP during its design, development and component fabrication. Retired.

# Texas

**Robert G. Bening**, MS CE, PE Colonel, US Army, Corps Of Engineers, (Ret.) 26 years Environmental Engineering Consulting. \*

**Dr. H. Sterling Burnett**, Ph.D. Senior Fellow National Center for Policy Analysis.

**Clarence (Cal) Creacy**, BS Mechanicl Engineering. Oil field logging. Rocket test Titian ICBM engines. Nuclear rocket reactor and hydrogen pump testing. Project manager during startup of Oconne nuclear power plant Units 1,2& 3. Marketing & contract management for steam generator inspection, maintenance & repair. Retired.

William G. Driscoll, Jr., Special Agent in Charge (Ret.) U.S. Secret Service. A Former Supervisory Agent for Henry A. Kissinger, White House.

**Dr. Warren S. Duncan**, BS, MS - Geology, PhD - Geophysics. Career in the oil industry. \*

John Groth, Captain US Navy (Ret.) US Naval Academy '60. Nuclear Engineering Command/Design Course. Chief Nuclear Officer CONED of New York, VP Operations South Texas Nuclear Project, VP Analysis Institute of Nuclear Power Operations, CO Nuclear Repair Ship, CO Naval Nuclear Power School, CO Nuclear Submarine , Consultant to IAEA, Examined 70 nuclear units world wide

**Dr. John Hardy**, Ph.D. nuclear physics. Distinguished Professor of Physics at Texas A&M University. Fellow of the Royal Society of Canada and of the American Physical Society. Over 45 years in nuclear physics research and teaching. Formerly a Division Director at Atomic Energy of Canada Ltd., Chalk River.

**D. John Hott**, BBA, JD, LLM Oil and Gas Professional with over thirty years of experience. \*

**Andy Kienlen**, 12<sup>th</sup> grade. Written two position papers on nuclear power. Career objectives: major in nuclear engineering, minor in accounting or chemical engineering.

**Dr. Patricia A. Lapoint**, Professor of Management, School of Business, McMurry University. \*

Monte Pendleton, BS Civil Engineer. \*

**Bill G. L. Stafford**, Explored, evaluated and exploited water world wide. Research of Earth Plate movements, Volcanoes and earthquakes. Disabled veteran of the Korean War. \*

**Keith Thayer**, PE. Member of ASME's Energy Committee and President of ASME 1997-98.

**Dr. Bernard L. Weinstein**, PhD Economics. Currently, Associate Director,

Maguire Energy Institute, Cox School of Business, Southern Methodist University. His clients have included AT&T, Texas Instruments, Reliant, Entergy, Devon Energy, the Nuclear Energy Institute, the U.S. Conference of Mayors, the Western and Southern Governors Associations, the Cities of Dallas and San Antonio, and the Joint Economic Committee of the U.S. Congress.

# Utah

**Dr. Gary M. Sandquist**, PhD Mechanical and Nucler Engineering. Four decades in

nuclear science; mechanical, nuclear and biomedical engineering; university teaching, scientific research. Professor Emeritus University of Utah. Fellow American Nuclear Society. Fellow American Society of Mechanical Engineering.

# Virginia

**Dr. Peter J, Dirr**, Educator, Grandfather of 7 who will live in a world that needs to be powered at least in part by nuclear.

### Dr. Richard C. Forrester III,

Chemistry/Chemical Engineering. Staff Research Engineer – Oak Ridge National Lab. Technical Representative – IEA Coal Research Group. Fluor Engineers & Constructors – Synthetic Fuels Group. VP Science Applications International. 2004 – Present Senior VP, VW International \*

Marjorie Mazel Hecht, Managing Editor, 21st Century Science & Technology magazine. Writer, editor following nuclear power and science for 35 years. Author, "Save the Fast Flux Test Facility!" and "The Nuclear Power Revolution: Modular High Temperature Reactors."

**Jacob Heinz**, BS EE. U.S. Naval Academy. Master of Business. Executive in Telecommunications Industry.

**Megan Soyster Heinz**, BA – communications, Spanish. Licensed Real Estate Appraiser.

**Dr. W. Reed Johnson**, Professor Emeritus, Nuclear Engineering, University of Virginia. Worked in nuclear submarine program, and design and operation of the Army Package Power Reactor. Associated with the U. of Virginia's Nuclear Engineering Program from its beginning. Served on the Atomic Safety and Licensing Appeal Panel, participating in the resolution of technical and legal issues which arose in licensing of many of the U.S. nuclear power plants. Fellow of the American Nuclear Society.

**Dr. John W. Landis**, Nuclear Engineer, National Academy of Engineering. President of American Nuclear Society, President of Gulf General Atomic Co., Senior VP Stone & Webster Engineering Corp. (Ret.).

**Dr. S. Fred Singer**, physicist, Professor (em) U of Virginia; former Chief Scientist, DOT; former Consultant to DOE on nuclear fuel disposal.

Harry (Ed) Soyster, BS U.S. Military Academy, MS Chemistry, MS Systems Management, National War College. Career Army officer retiring as Director, Defense Intelligence Agency with rank of Lt. Gen.

**Karin Soyster**, BS Education. Non Profit Trade Organization for Baking Industry.

**Steven Unikewicz**, BSME, 28 years, Nuclear power plant designer, engineer, operator, regulator, consultant, member ASME.

**Dr. Leonard Weinstein**, ScD Mechanical Engineering (Fluid Mechanics and Thermal Science). Worked at NASA Langley Research Center 45 years. Presently, Senior Research Fellow at National Institute of Aerospace. Recipient of NASA Exceptional Engineering Achievement Medal, 1999 American Institute of Aeronautics and Astronautics (AIAA) Engineer of the year.

#### James M. Williams, Retired

Nuclear/Chemical Engineer. Los Alamos, AEC, ERDA/DOE. Fast reactor technology, nuclear safeguards and nuclear fusion.

#### Washington State

**Dr. Robert W. Albrecht**, Professor (emeritus) Nuclear Engineering and

Electrical Engineering, University of Washington.

**Dr. Harry Babad**, Chemistry. 35 year advisory scientist & Manager Nuclear waste management & Disposal. Co-author Nuclear textbooks Nuclear Energy and the Use of Nuclear Materials. Fellow ANS

**Delbert L. Ballard**, PE, BS Civil Engineering. Principal Engineer, Manager, 40 years experience in development, design, and construction of various test reactors and related facilities on the Hanford Nuclear Site, Life Member ASCE

Lane A. Bray, BA Chemistry. He is known as a technical expert in separations, recovery, and purification of isotopes and is a noted authority in the use of Cesium and Strontium ion exchange for the Department of Energy's West Valley and Hanford nuclear waste cleanup efforts. He patented the USDOE/PNNL process for purifying medical grade Yttrium-90 that was successfully commercialized in 1999. He invented and patented the proprietary Cs-131 purification process assigned to IsoRay Medical Inc for use in prostate seeds. In 2000, he received the Radiation Science and Technology award from the American Nuclear Society. He retired from the Pacific Northwest National Laboratory and currently is the Chief Chemist for IsoRay Medical Inc. He has been a Washington State Legislator, a Richland City Councilman, and Mayor of Richland.

**Samuel J. Beard**, (Ret.) President, Chairman of the Board and Chief Executive Officer of Exxon Nuclear Company.

**Martin Bensky**, 21 years Rocketdyne, liquid propellant rocket engines. 17 years Hanford, waste management. 4 years alternate public representative Hanford Advisory Board **David L. Blessing**, 32 years with Naval Reactors evaluating alternative reactor concepts.

**Dr. David Bodansky**, Professor Emeritus of Physics, University of Washington. Author of "Nuclear Energy: Principles, Practices, and Prospects."

**David Boleneus**, MS, MBA, Licensed geologist, geophysicist, mineral examiner, US DOI (ret.) and industry: identify and assess metallic and energy mineral deposits, mine-processing cost-consultant to International Atomic Energy Agency (IAEA) Div. of Nuclear Fuel Cycle.

**Dr. Nancy K Crotty**, MD, Board certified internal medicine. Mother. Two sons serving in U.S. Army in Iraq / Yemen. Retired. 24 years medical practice. Supports nuclear power ant its development in the U.S. \*

**Oliver A (Al) Farabee**, BS Nuclear engineering, MS mechanical engineering. Studies on FFTF for medical isotope production as well as interfaced with public organizations (presentations) on medical isotope production, treatment and availability. Member ANS.

**Dr. Michael R. Fox**, Physical Chemistry. 40 years experience in nuclear waste management, plutonium and radiochemistry lab work. Geological repository design work. Professor of Chemistry, Idaho State University. Consultant in nuclear waste processing, WMD detection.

**Dr. Alan R. Fritzberg**, PhD. 30 years radiopharmaceutical development for both diagnosis and targeted radiotherapy in nuclear medicine. University of Colorado Assistant, Associate Professor of Radiology. University of Utah Professor of Radiology. While at University of Utah his group and he developed Technetium-99m MAG3 for renal imaging. Radiopharmaceutical development consultant.

**D. Mark Gerboth, P.E.**, MS Chemical Engineering, MBA. Engineer and engineering manager for cesium and strontium encapsulation plant and plutonium recovery and recycling facility. Developed and managed programs for environmental remediation at multiple DoD and DOE sites. Managed design for spent nuclear fuel storage facilities. Currently the Chief Engineer for EnergySolutions.

Carl Holder, Fast Flux Test Facility. \*

**Gary F. Howden**, Sr. Principal Engineer, (Ret.), Westinghouse Hanford Company, managed design and development of nuclear fuel fabrication facilities for the Fast Flux Test Facility (FFTF), supervised design and development of hot cell irradiated fuel examination equipment for the Fuels and Materials Examination Facility (FMEF). \*

**Ralph Johnson**, PE. Many years experience in engineering and management of large nuclear engineering projects: design, nuclear safety, testing. Now serve as an independent consultant in energy. During career served in a key advisory position to top management in public affairs.

**Dr. David H. Lester**, Chemical Engineer. 40 years experience in chemical and nuclear engineering including 36 years specializing in hazardous and nuclear waste management. Design, construction, and operation of high-temperature sodium systems for fast flux breeder reactors. \*

**Norman MacLeod**, Consulting in natural resource policy design. \*

Wesley McCart, BS, Biomathematics. Farmer. Chair Washington State Farm Bureau Climate Change Committee. Stevens County Farm Bureau – President. Washington Farm Bureau 2009 meeting language for increased nuclear power and recycling of nuclear fuel. \*

**Karen Murray**, BA. Educator, Homemaker, VP of Spokane College Women's Association. \*

**Claude L. Oliver**, BS Political Science, Business and Economics. 30 Years Public Service. 8 Years Commercial Banker. 2002 Led White House US DOE Fast Flux Test Facility Briefing Team. 1990 Formed Nuclear Communities Working Group (NCWG). 1991 Co-Founder of Energy Communities Alliance, Washington DC

Marlene Oliver, M.Sc. Biology. Thirty years experience developing and introducing new technologies to medical profession. American Nuclear Society – EWS. Fighting Children's Cancer Foundation. Washington Department of Health - Washington Cares about Cancer Partnership. Society of Nuclear Medicine - Molecular Imaging Center of Excellence. Nuclear Oncology Council. Radiopharmaceutical Sciences Council. European Association of Nuclear Medicine. Asia-Oceania Federation of Nuclear Medicine and Biology. World Assoc. of Nuclear Medicine and Biology. CEO, Innovative Cures Foundation and Curative Technologies Corporation.

James N. Paglieri, BS Engineering Physics. Provided criticality safety reviews, inspections, appraisals for 41 years. Lead reactor safety oversight of a TRIGA reactor for 10 years. Criticality and reactor safety support for ~22 years for the Fast Flux Test Facility (FFTF). Became acutely aware of need for radio-isotopes for applications such as Plutonium-238 for space power.

**Dr. Gregory Schenter**, PhD Applied Physics. Specialty is Chemical Physics. He is interested in fundamental developments in both Chemical and Nuclear processes associated with energy policy and medical isotope use. Fellow, American Physical Society.

Arthur Seddon, Chief of Fire Direction, U.S. Army Artillery, Korea. Manufacturing Engineer, Aerospace programs. \*

**Bonnie Shannon**, BA, Social Sciences. High School and Grade School teacher 19 years. \*

Keith Smith, Labor Union steward, chief steward, president of the Machinists Unions' Desert Lodge at Hanford Nuclear Reservation, retired. Worked 31 years at HNR with reputation for expertise in the field of worker safety and productivity. Chair of the Hanford Advisory Board's Health, Safety and Environmental Protection Committee

**Gary Troyer**, BS Chemistry, MS Computer Science, 40+ years experience in nuclear chemistry and computer science, analytical chemistry automation development, senior lecturer in computer science in Africa, chair of Citizens for Medical Isotopes. Consultant for fast spectrum reactor development. Member IEEE, ANS, HPS, AAAS.

**Dr. Alan E. Waltar**, PhD engineering science. Past President of the American Nuclear Society, Past Professor and Head, Nuclear Engineering Department, Texas A&M University, Thirty years of engineering and management experience with Westinghouse and Battelle (mainly safety and materials analyses for the Fast Flux Test Facility at Hanford), Author of three books (FAST BREEDER REACTORS, AMERICA THE POWERLESS: Facing our Nuclear Energy Dilemma, RADIATION AND MODERN LIFE: Fulfilling Marie Curie's Dream). **Michael E. Williamson**, Marine Geophysicist, Board of Directors, The Science Council for Global Initiatives.

**Dr. Paul Wilson**, Electrical Engineer. Quality Assurance BWR, PWR, DOE Weapons Facilities. Author, Root Cause Analysis, Performance Based Assessments.

**Gerald Woodcock**, MBA. 30 years managerial and professional positions at Hanford Nuclear Reservation. Presidential Citation from American Nuclear Society.

# Wyoming

**David Miller,** Wyoming House of Representatives, House District 55. Registered Professional Geologist CP-363. CEO Strathmore Minerals Corp. 34 Years of Energy exploration - production experience.

**Robert D Odell**, BS Geology. Uranium Geologist. Energy exploration - production experience. Rocky Mountain Uranium Scout, Consultant. Member Wyoming Citizens for Uranium Resource.

**Dr. John Wirth**, Engineering. President, Founder and Owner Woodworker's Supply, Inc. \*

\* - Indicates ClimatePhysics.com and StandUpAmerica.

# AUSTRALIA

**Peter Lang**, MSc Engineering Rock Mechanics. CPEng, MIEAustralia. 40 years experience on energy projects, site investigations of Wolsung 1 nuclear power station, South Korea. Research and management at the Canadian Underground Research Laboratory, a component of the Canadian Nuclear Fuel Waste Management Program.

# **AUSTRIA**

**Ed Bradley**, BS ME. Twenty years of international nuclear power and research facility engineering and operations support experience. Nuclear Engineer.

**Dr. Gerhart Schueller**, Ph.D. CE, Structural Engineering, Stanford Univ. Dr.-Ing. E.h. Ruhr Univ., Bochum, Germany. Senior Lecturer, Tech. Univ. Munich, Chair Prof. Univ. Innsbruck, (1981 - date). Member of CERRAM Consulting Group.

#### **BELGIUM**

Alain Michel, ingénieur civil mécanicienélectricien. Thermohydraulics of nuclear reactors and solar plants. Strategy and communication in energy field. Belgonucleaire, sodium cooled fast reactors. Almeria solar plants and recycling of excess weapons grade plutonium.

**Servais Pilate**, Civil Engineer. BELGONUCLEAIRE over 40 years, coordinating fast reactor projects, contributed to European Commission's program on nuclear weapons elimination . (Ret,).

# **CANADA**

#### Alberta

Laurence G. Hoye, Professor Emeritus, University of Lethbridge. Founded Dept. of Mathematics and Computer Science 1967. Member Canadian Nuclear Society.

**Dr. Duane Pendergast**, PE, Mechanical Engineer. Retired from CANDU engineering at Atomic Energy of Canada Limited. Website (www.computare.org) on energy and management of greenhouse gases. Chairman, Alberta Branch, Canadian Nuclear Society.

#### British Columbia

**Dr. John D'Auria**, Professor Emeritus of Chemistry, Simon Fraser University (Canada) Over 50 years teaching and research in Basic and Applied Nuclear Science (~200 papers) Nuclear chemistry, Radiochemistry, Nuclear Astrophysics at TRIUMF & CERN/ISOLDE.

**Dr. Barry Davids**, PhD Experimental nuclear physics. Research Scientist TRIUMF, Canada's National Laboratory for Particle and Nuclear Physics. Adjunct Professor of Physics, Simon Fraser University

**Dr. Krzysztof Starosta**, Nuclear Physics. Associate Professor, Department of Chemistry, Simon Fraser University, previously Michigan State University and State University of New York at Stony Brook.

Brian Hall, Political analyst. \*

#### Manitoba

**Dr. Len Simpson**, Physics, Metallurgy. AECL, Fracture Mechanics, Materials Science, Division Director, Reactor Safety Research, AECL. Canadian Nuclear Society. Mayor, Pinawa, Manitoba, Extensive lobbying with federal ministers on decommissioning, Manitoba government on nuclear plants.

# New Brunswick

# Dr. W. Eugene Goodrich, Professor

Emeritus (History) Mount Allison University. Canadian who very passionately supports nuclear power as the only sane way to generate the amount of electricity the world needs without damaging the environment. \*

# Ontario

**Dr. Paul Adamthwaite**, Doctorat ès Sciences Philosophiques in mathematics. Oceanography, marine and environmental engineering, and youth development programs in these fields.

**Tony Clark**, Supervisory Nuclear Operator Bruce Nuclear Power Development (Ret.) \*

**Dr. Jerry M. Cuttler**, D. Sc. Nuclear Sciences. Nuclear Engineering. PE. 45 years experience in nuclear science; 30 years of nuclear design and support of CANDU reactors in Canada (22), Argentina (1) and Romania (2).

**Dr. Dan Meneley**, Chief Engineer Emeritus, Atomic Energy of Canada Ltd. (Ret.) Member, Science Council for Global Initiatives.

**Dr. Peter Ottensmeyer**, PhD FRSC, Senior Scientist (Ret.) Ontario Cancer Institute Professor Emeritus, University of Toronto.

**Prof. J.T. Rogers**, Professor Emeritus, Mechanical Engineering, Carleton University, Ottawa. Nuclear Engineering Consultant. Member, R&D Advisory Panel to Board of Directors of Atomic Energy of Canada Ltd.

# Quebec

**H. Douglas Lightfoot**, Mechanical Engineer (Ret.), MBA Member of Global Environmental and Climate Centre (GEC3), McGill University. Author of Nobody's Fuel DVD.

# **FRANCE**

**Dr. Bruno Comby**, Physicist. President of Environmentalists For Nuclear Energy, an international non-governmental organization based in France, created in 1996, now gathering over 10 000 members and supporters in 60 countries, author of book "Environmentalists For Nuclear Energy" translated and published in 15 languages.

Michel Rozenholc, Leader in design and engineering of nuclear technologies. Leader in developing and implementing advanced management techniques. Formerly: French Commissariat a l'Energie Atomique, President of GAAA. President of Novatome; Design and engineering of the FBR Superphenix. Vice President of Business Development and Strategy at Framatome. Since 1987, CEO of his own consulting firm. Director, Energy Strategists Consultancy Limited.

# **GERMANY**

**Dr. William Grossman**, Partner, Transformation Consulting International GMBH - Energy Sector Consulting. Adjunct Professor, Virginia Polytechnic Institute and State University.

**Dr. Wilfried B. Kraetzig**, Prof. Dr.-Ing. habil. Dr.-Ing. E.h., Institut fuer Statik und Dynamik, Ruhr-Universitaet Bochum. Member of ASCE, IABSE, IASS. Analysis, design and safety assessment of world's largest natural draft cooling towers and other power components. **Dr. Udo Wehmann**, Physicist. 30 years experience in core and safety design of fast reactors. IAEA and NEA consultant.

# **INDIA**

**Dr. Baldev Raj**, director of the Indira Gandhi Centre For Atomic Research in Kalpakkam, India, is a member of the elite (INEA). The 150 member INEA is a body of scientists and policy makers engaged in development and utilisation of peaceful applications of nuclear energy throughout the world.

# **IRELAND**

James Hogan, Masters degree, electrical & electronic engineering. Design and development of digital instrumentation & control systems. Consulting on scientific real-time computers. Now full-time writer on scientific and technological subjects.

**Patrick L. O'Brien**, M.Sc (NUI) FCIWEM (UK) CEnv (UK) CSci (UK) MIChemE (UK) MCIWM (UK). Lead EHS Engineer PM Group. Senior Environmental Consultant with over 40 years experience both in Ireland - UK - Central & Eastern Europe - North Africa and the Middle East.

# **JAPAN**

Masao Hori, Master of Engineering, Chemical Engineering. Editor, International Nuclear Societies Council's books, "Vision for Second Fifty Years of Nuclear Energy" (1996), "Nuclear Production of Hydrogen: Technologies and Perspectives for Global Deployment" (2004), both published by American Nuclear Society. Member, Nuclear Hydrogen Society.

**Kiyoshi Yazawa,** Science journalist/editor for 30 years. Author of "Nuclear Renaissance" in Japanese. Director of Yazawa Science Office.

# MALAYSIA

Mohd Peter Davis, MS Biotechnology. With cheap and abundant nuclear desalinated water from sea water, the Deep Tropical agricultural system developed in Malaysia can green the deserts and supply a Western high protein quality diet for the undernourished billions in developing countries.

**Dr Abdul Aziz Mohamed**. PhD. High temperature creep in weldment - nuclear applications. Career in nuclear science & technology – materials. Malaysian Nuclear Society, Institute of Materials Malaysia /Malaysian Welding & Joining Society.

# **MEXICO**

**Dr. Juan Luis Francois**, Reactor Physics. Professor of Nuclear Engineering at the National University of Mexico. Member of the: International Nuclear Energy Academy, Academy of Engineering of Mexico, Mexican Academy of Sciences. Vice president / President elect of the Pacific Nuclear Council.

**Cesar F. García Martinez**, Engineer's Degree in Nuclear Engineering. He was Engineering Manager of the Laguna Verde Nuclear Project in México, with 2 units operating successfully during 20 years

Dr. Cecilia Martín-del-Campo Márquez.

PhD in Reactor Physics. Nuclear Engineer. Professor and Researcher at the College of Engineering, National Autonomous University of Mexico. President of the Mexican Nuclear Society. Member of WIN – Women In Nuclear, LAS/ANS, and the Academy of Engineering of Mexico.

**Dr. Carlos Chavez Mercado,** PhD Nuclear Engineering. Professor and researcher in Human Factors and Nuclear Safety. Nuclear Reactor Engineering Analysis Laboratory Engineering School. Universidad Nacional Autónoma de México

**Dr. Carlos Velez,** PhD, Nuclear Engineering. Honor Member, Mexican Academy of Engineering. Fellow, American Nuclear Society. Former Deputy Director General, International Atomic Energy Agency.

# THE NETHERLANDS

**Captain Vyron Lymberopoulos**, Pilot training, 20 years with airline, 13,000 flight hours, 7 years as instructor.

# NEW ZEALAND

**Bryan Leyland,** MS. FIEE, FIMechE, FIPENZ. Consulting engineer in power generation, transmission and distribution. Experienced in hydropower, combined cycle generation, steam power generation, wind power, wave power and tidal power. Expert Advisory Group for Kalpasar 5800 MW tidal power scheme in India.

# POLAND

**Dr. Andrzej Czachor**, Solid state physics, neutron scattering theory. Author of 70 publications. Organization of the Neutron Radiography Station. Organization of several International Schools of Physics, Deputy Chairman of the Scientific Council of the Institute of Atomic Energy.

**Dr. Zbigniew Jaworowski**, MD, PhD, DSc, Professor, Central Laboratory for Radiological Protection, Warsaw, Poland. Member of the United Nations Scientific Committee on the Effects of Atomic Radiation (UNSCEAR). President, Polish Society of Environmentalist for Nuclear Energy. Dr Andrzej Strupczewski, Nuclear Engineering. Head of Nuclear Safety Commission at Institute of Atomic Energy, Expert for nuclear safety of the International Atomic Energy Agency (6 years leading IAEA expert. 35 missions to 20 countries) and expert for European Commission (4 years nuclear safety issues). Environmentalists for Nuclear Power -Deputy Chairman of the Polish chapter.

# **RUSSIA**

**Dr. Semen (Sam) Dukarevich**, Cryogenics Technology. Former Chief of Ground Freezing Department in Lenmetrogiprotrans Institute, St. Petersburg, Russia, The Council of Ministers USSR Prize Laureate, Co-technical leaders with Dr. Evgeny Velikhov in building ice shield beneath the Chernobyl catastrophe in 1986. Retired to Colorado, USA, American Citizen.

**Dr. Evgeny Velikhov**, Director of Russia's Kurchatov Institute. A Russian Who's Who did a special article called Man of the Century, not about Gorbachev or Lenin but about Dr. Velikhov. Find his mini-bio on <u>the</u> <u>SCGI site</u>. Like Len Koch, he was a winner of the Global Energy Prize. Member, Science Council for Global Initiatives.

# SOUTH AFRICA

Lesley Turner, BS Geology, Chemistry. Geologist of 40 years experience. "SA is currently involved in development of the Pebble Bed Modular Reactor technology for nuclear power generation. SA has one successful nuclear power station, Koeberg, and others are planned. Rational energy conservation must be practiced and appropriate use made of sustainable localized solar, geothermal, hydroelectric and wind energy technologies to avoid the huge transmission grid losses." \*

### **SWITZERLAND**

Hans Achermann, Electrical engineer Swiss Federal Institute of Technology. Former Member of the Executive Board of EGL AG Laufenburg with management responsibilities for the Leibstadt NPP, several hydroelectric companies and the operation of the Swiss high voltage grid.

Peter U. Fischer. Mechanical and nuclear engineering degrees. Chairman of the European Nuclear Council. Chairman of the Uranium Institute, General Atomic in San Diego, California, he directed the nuclear design efforts of the first High Temperature Gas Reactor (HTGR) power plant at Peach Bottom, Pennsylvania. Specific management responsibilities in Switzerland: - Internat. electricity trading and generation; -Construction and operation of hydro-electric facilities; - Construction and operation of high voltage power lines. In charge of Swiss nuclear power plant, Kernkraftwerk Leibstadt, KKL, during construction. Currently, Director ESCL in VA.

**Theo Schaub**, Vice Director Nuclear Power Plant Leibstadt. (Ret.) "I remember with gratitude, that President Eisenhower installed an International School for Nuclear Science and Engineering (ISNSE), where I profited from post-graduate study in 1956 and training in reactor safety in 1959/60. Though I see clearly the limited potential of the known alternative energy sources, I think it is useful and justified to explore all possibilities."

**Theo Schotten,** Consulting engineer, 35+ years experience with PWRs and BWRs.

**Dr. Antonio Tiberini**, Energy expert, PhD Swiss Federal Institute of Technology, CEO of Newheat LLC, previously Co-CEO of Electric Utility Company, Energy Consultant, Nuclear Safety in Leibstadt Nuclear Power Plant. In 1987, Visiting Prof. for Reactor Engineering at Texas A&M University.

Dr. M. van den Engh, Polymer Scientist.

#### **UNITED KINGDOM**

**The Viscount Monckton of Brenchley**, Monckton Enterprises Ltd., consultants in public administration; former Special Advisor to Margaret Thatcher as UK Prime Minister

John Ritch, MA, U.S. Military Academy; MS, Oxford University. President, World Nuclear University; former U.S. Ambassador to the International Atomic Energy Agency. Director General, World Nuclear Association;

### **VIETNAM**

Martin Dockery, Lawyer. Career advocating and defending nuclear power in the United States. Living in Vietnam, teaching English and History. Author of "Lost in Translation," a personal account of a Combat Advisor in Vietnam in the early 1960s. Hans Achermann, Switzerland John Adams, Minnesota Rod Adams, Maryland Dr. Paul Adamthwaite, Canada Dr. Robert W. Albrecht, Washington John Allmon, Pennsylvania Dr. D.
